How To Participate in the ICO:

- [Full Guide](#) (good for beginners)
- [Fast Track Guide](#) (good for more experienced contributors)

Frequently Asked Questions

1. What is the token price?

During the first week $1\text{ETH} = 1000\text{ Lif}$, the second week $1\text{ETH} = 900\text{ Lif}$

2. Is there minimum to invest?

There's no minimum and you can invest fractions of ETH.

3. What determines the price of Lif?

Here is a [paragraph](#) explaining the price.

4. Will Lif be pegged to ETH?

Only for the duration of the Token Generation Event. The supply of tokens will be fixed from then on and no longer pegged to ETH. The price will be determined by supply and demand.

5. Can I buy Lif with fiat or other cryptocurrencies?

You will be able to buy Lif with ETH only.

6. What wallet can I use to contribute?

Any ERC20 standard supporting wallet, we recommend Jaxx (easier) and MEW (popular). Do NOT contribute from an exchange wallet. Full guide [here](#).

7. Is there a whitelist?

No whitelist, this is your complete guide on the process.

8. The guide says I need to register for the sale and do KYC — how do I do it?

Registering your contribution and KYC (required for 15 or more ETH) will be available on token sale page which we will announce and share shortly before the sale starts on February 1. If you're subscribed to our [newsletter](#) — you'll be notified right away.

9. What was the pre-sale discount and why did early investors get high bonus?

Out of the total amount raised, \$1.25mln was raised at 10% bonus rate, \$300k at 30%, and \$35k at 50% bonus rate. Only about 0.155% (\$233k) of contributions to-date was given out as a bonus on pre-sale.

For the sake of decentralization, we have managed to keep the amount of bonus to the bare minimum. This accounts for almost nothing even

compared to the most decentralized ICOs today.

Bonus itself was granted as an expression of appreciation to the investors who have trusted us when we didn't have a single line of code written, nor a single partner from the travel industry signed. In fact, the 50% bonus only makes up 0.033% of contributions to-date coming from true believers in the project.

10. What is the total token supply?

Total supply will be determined by the outcome of ICO. Full explanation [here](#).

11. What is your Cap?

We use a Market Validation Mechanism (MVM), which means that the market (every token holder) decides on the funding we receive over the next years. After the ICO we receive a maximum of \$10Mil regardless of how much money is raised. The remainder, if any, goes into a smart contract which buys back tokens (and burns them) at a rate of $(\text{TotalRaised} - \$10\text{Mil}) / \text{Token Supply}$. Over time the smart contract releases some funds to the Winding Tree team. If token holders return their Lif for ETH the contract will be have no funds and the team will receive nothing. Full explanation [here](#).

12. Will Lif support decimals?

Lif is divisible up to 18 decimals. So you can send a minimum of 0.000000000000000001 Lif

13. Is there a buy back program?

The excess of raised \$10 million will go into a smart contract that buys back tokens. Once tokens are distributed if you wanted to sell those back — there

will be a MVM contract address to which you can send your tokens and get ETH back. This allows contributors to get some of their contribution back if we do a bad job or other unpredictable events happen, hence it acts as a validation mechanism.

14. Will US residents be able to participate in the ICO?

Due to the uncertain regulatory landscape in the United States, US citizens or residents won't be able to participate and we will use geo-fencing to enforce that.

15. What if I contributed during pre-sale?

Your tokens will be distributed along with everyone else's after the ICO. You can verify your pre-sale contribution via Etherscan.io using the address of pre-sale: 0x4a4aC8D0B6a2f296C155c15C2bCaf04641818b78 You don't need to do anything extra during the crowdsale.

16. When will I get the tokens?

Tokens will be distributed to the same wallet address from which you contributed in approximately 7 days after the end of the ICO. Tokens will also be tradable on exchanges and we will be announcing the exchanges after the ICO via [newsletter](#).

17. Who are your partners?

[Lufthansa Group](#)

[Air New Zealand](#)

[Nordic Choice Hotels](#)

18. Is Winding Tree a non profit?

Yes, registered in Gibraltar. Latest legal status update [here](#).

19. Is Winding Tree Open Source?

Yes, check [Github](#).

20. Do you have a prototype?

Check out the [demo](#).

21. Latest news from the team?

See [official blog](#).

22. Latest press coverage?

- [Winding Tree featured on CoinTelegraph](#)
- [Interview with Pedro Anderson](#), one of the founders of Winding Tree
- [CryptoCoin News](#) coverage
- Winding Tree featured in [Phocuswire](#)
- Winding Tree on [Future Tech Podcast](#)
