Weekly Development Update 1/7 to 1/13

Spencer · Following

Published in Winding Tree · 1 min read · Jan 14, 2019

We have officially begun work on our Airlines proof of concept. You can read more on the details of that [here](#). Since we already have the hotel portion of our platform to work off we will start by taking what we have built there to better fit what and specialize it for what airlines need.

We are finishing up our discussion on upstream data validation that you can see [here](#). If you have any suggestions on how that can be addressed, feel free to participate in the discussion.

Thank you for your continued support and patience! If you have any questions, join our [Telegram](#), any technical discussion should go to our [Google Group](#). If you want to contribute, a good place to start is our [GitHub](#).
