Weekly Development Update 3/11 to 3/17

Spencer · Following

Published in Winding Tree · 1 min read · Mar 18, 2019

For this week we are excited to let you know we have completed our latest platform release. You can see all of the improvements that we made to the data model area [here](#).

Our data model is growing steadily, you can see the latest addition of [Airlines](#). Because of this addition, we are adding it to its own repository which can be found [here](#).

We are putting forth a lot of effort in making the [Winding Tree Index](#) upgradeable with the use of the fantastic [zos](#) from [Zeppelin](#). We are going to deploy this to the Ropsten testnet as soon as it's ready to go. This should be the last time that we will need to change the index address and reconfigure all of our toolings.

Thank you for your continued support and patience! If you have any questions, join our [Telegram](#), any technical discussion should go to our [Google Group](#). If you want to contribute, a good place to start is our [GitHub](#).
