Weekly Development Update 5/13 to 5/19

Spencer · Following

Published in Winding Tree · 1 min read · May 21, 2019

This week we are excited to let you know that the [Lif deposit](#) code is public! Please go and check it out and let us know if you have any ideas for improvement. For the next steps, we will try it out in our [Read API](#) for the [hotel guarantors](#) scheme. But the trust clues design allows us to reuse it over and over again for many use cases, such as signing the Booking requests. This whole thing will also be part of our next release which we are currently working on.

Do you have something to add or would you like to ask about more details? Join our [Telegram](#), any technical discussion should go to our [Google Group](#). If you want to contribute, a good place to start is our [GitHub](#) and [Developer Portal](#).

Don't forget that we are doing our second hackathon this July in Lisbon. You can learn more about it [here](#). Whether you're a developer or the business side of travel — we'll be collaborating on the business cases and hacks together. Spots are limited and participation is curated, please apply [here](#).
