Portis Wallet by ShapeShift. Now on Winding Tree

Spencer · Following

Published in Winding Tree · 2 min read · Aug 27, 2020

We are excited to announce that we have completed integrating the Portis wallet with our platform.

The Portis wallet by Shapeshift is a Non-Custodial Blockchain wallet that makes interacting with the blockchain simple for everyone.

Portis is a simple and elegant app that provides a user-friendly experience for those who would like to interact with the blockchain but not deal with some of the more nuanced aspects like private keys. Users can feel comfortable using it thanks to the familiar experience that it offers by using just an email and password. The private key associated with is self-custodial, encrypted client-side, and accessible from any device.

We are excited to have this integration complete as it removes some of the barriers that would keep more traditional travel businesses out of the blockchain sector.

See how easy it is to use:
