As you know, we're upgrading the Lif token contract. We'd like the new contract to be further upgradeable (the old contract was inaccessible to us), but we don't want to be the sole decision makers in this matter. That is why we are inviting the community to participate in token governance.

Phase 1: Multisig 4/6 — Elections

First, we will transfer the control of the token contract to a multisig with three members of the Winding Tree team, and three members of the community, Lif Token Custodians. Token Custodians will be selected in three stages. *

Nominate Yourself or Someone Else — September 20–27, Noon UTC

Community members will have to nominate themselves (or someone else) via [Winding Tree Snapshot Space](#). Nominees will have to provide some information about them (please do not share your personally identifiable information), explaining why they should be considered for participation in token governance. Nominees that gather more than 50k Lif in votes will advance to the next stage.

Interview with Nominees —October 6-October 11

In this stage we will interview the candidates to make sure that they exercise reasonable security practices.

Elections —October 11-October 18, Noon UTC

On October 11 we will create a proposal (it will be created by 0xc4f04f1eB7D9024c519CFb968e15bA01FDe7DBADC). The simple majority will elect three Lif Token Custodians that will be added to the multisig.

Phase 2: DAO (early 2022)

In 2022, control of the token will be transferred to the DAO. Details of this transition are yet to be determined.
