We made it!

- All rooms at [win.so](#) for Devconnect in Amsterdam are successfully sold out.
- The first travellers checked in with NFTS at DoubleTree by Hilton Amsterdam.
- Ever!

17.04.2022 is a big date

Winding Tree team made the first step towards a great shift in travel industry. Within less than two months we managed to find partners in #Amsterdam, to educate executives, onboard inventory on blockchain and to find people who booked hotels for crypto and checked in with NFTs for Devconnect event.

The MVP we've built and launched recently got a lot of feed back from the community. That was one of the key moment of our success. Discord and Twitter were both buzzing with comments and suggestions, that helped us to polish the Dapp (decentralised application).

Therefore we feel absolute gratitude towards our community as well as towards developers of the **Gnosis Chain** and other web 3.0 projects, who supported us.

Right now when these words are being typed and published our product team is working with managers in hotels to help them better understand procedure, collect the feedback and to feel the mood both from «hosts» and travellers.

As mentioned above **Win.so** is an MVP. A functioning and absolutely unique MVP which we are going to develop and bring to more cities hosting blockchain events around the world.

So if you work in travel or simply consider travelling as an indispensable part of your life or work, please join our [Discord](#) and [Twitter](#).

More interesting innovations in web 3.0 are coming soon. And as it looks now, the future of [#Travel](#) is much close than it seemed a year ago.

P.S. We added some rooms for few days from the 20th till 28th of April including King's Day. Check them at 👉 [win.so](#)
