4

The blockchain-powered travel platform that rewards you. Created and funded by the Web 3.0 community.

Be among the first early adopters of this smart-contract powered sustainable revolution.

What's New?

- Get rewarded with each booking
- A simple guide to book
- New to WIN?

A WIN-WIN situation

Get rewarded each time you make a booking with us. After you make your booking you have a choice:

1. Retire CO₂ emissions from your trip

2. Get Líf Tokens and join in the long-term governance of our project

Web 3 + Travel

Hotels and accommodation providers are not ready for Web 3 but with WIN we can create this proof that people are willing to change the way they book in order to make their travel more sustainable and accessible.

So how can we book?

Please note, you can only book up to nine nights in one booking at the moment and the following steps are for individuals only. For group bookings, please fill out this form: <https://winwindao.typeform.com/to/ec2ycYN2>

Here are the steps:

1. Ensure you have a compatible wallet (*Right now we support injected wallets like MetaMask and WalletConnect-compatible digital wallets*)
2. Add Gnosis Chain and/or Polygon to your wallet ([Gnosis Guide](#) / [Polygon Guide](#))
3. Ensure you have enough of the correct token for your booking*
4. Connect your wallet
5. Book your stay!

If you have any questions or are lost, feel free to connect with us on Discord or on Twitter.

*Tokens used to book a stay must be a stablecoin that is related to the country's currency.

For example, if you are booking a stay in France please use a Euro-pegged token.

Which tokens can I use to make a booking?

As of today, 15 September 2022, you can use the following tokens to make a booking. But please note they **must** be on the Polygon or Gnosis Chain network and the hotel must accept the currency.

- All Jarvis Coins (Gnosis and Polygon)
- EURE (Polygon)
- USDT (Gnosis and Polygon)
- USDC (Gnosis and Polygon)
- DAI (Polygon)
- xDAI (Gnosis)
- wxDAI (Gnosis)

Quick Guide for Token Swapping / Purchases

Note: Please DYOR before doing any swaps and make sure you are on the right networks before signing transactions and inputting addresses.

If you are within the European Union, we suggest you use Mt Pelerin:

- No KYC
- SEPA, SWIFT transfer or Debit/Credit Cards

 [Use Mt Pelerin](#)

Another alternative is Monerium:

- Needs KYC
- Natively supports EURE

- Supports SEPA Instant Credit (Get tokens within seconds on Polygon)

👉 Use Monerium

If you are not within the EU, we recommend: Coinbase, Ramp.network or MoonPay:

👉 Coinbase

👉 Ramp.network

👉 MoonPay

If you are swapping stablecoins:

- Jarvis Exchange (USDC/xDai ↔ Jarvis Coins)
- Paraswap (integrated Jarvis Exchange with visual routing)

WIN Roundup

? What is WIN.so?

WIN is an accommodation marketplace for the crypto community and digital nomads.

📝 Why was WIN.so created?

We want to create a marketplace that actively works towards adding value to both parties: the guests and the hosts as well as be mindful of our environmental impact when we do so.

🌱 How is WIN sustainable?

We use the **Toucan Protocol**'s NCT (Nature Carbon Tonne) token to retire CO₂ emissions you emitted during your stay. In some cases, the emissions that are offset could be many multiples of the actual CO₂ emitted during your stay. Following your stay, we will deliver an NFT Certificate as proof of the carbon offset we have created on your behalf. Learn more about the NCT [here](#).

And that's all!

Today you can book your next adventure on the blockchain, pay with stablecoins and get rewarded.
