DevCon is BACK

After two difficult years thanks to C^*V^*D , the long-awaited DevCon has returned. This time to Bogotá. Thousands are set to gather for the [ethereum](#) event of the year. It will take place between the 11th to the 14th of October 2022. However, organizers are naming the week from the **7th up until the 16th of October** as '*DevCon Week*'.

For frens who travel to Bogotá, we have amazing news. With the dApp the Winding Tree and Simard teams have been working on, you now have a chance to get your first Web 3.0 travel experience; moving us towards a Solar Punk future and making your trips more sustainable.

A Platform for All

Released last week, [win.so](#) is our Beta platform which allows travellers to book accommodation with stablecoins, get rewards and make trips more sustainable using the power of smart contracts.

[Win.so](#) decentralises the relationships between travellers and accommodation providers to positively impact the global travel industry. But the world is big. And so is the industry.

So we're taking the first steps in introducing our solution to the travel and Web 3.0 communities — an intimidating but worthy challenge: How do we onboard both the travel and Web 3.0 communities simultaneously?

We are currently focused on supporting the Ethereum community and their projects to grow and thrive. And with the biggest event of the year approaching, we compiled a list of the hotels to stay in during DevCon (from 65\$ to 200\$ per night), which you can **book right now at [win.so](#)**.

A Hotel Tonic with a Twist of Sustainability

And there you have it.

Our top 5 picks for DevCon VI attendees and groups.

But did you know that one of win.so's rewards is a way to retire CO2 emissions on your behalf, sometimes more than the emissions you actually emitted during your stay — a net positive!

We work with [Toucan Protocol](#) to transparently and honestly retire CO2 using their Nature Carbon Tokens (NCTs) which you can read about [here](#).
