WT TEAM SHOWCASE #2

CRISTINA R

Happy Friday to you all!

This week we are introducing another incredible member of our team: Cristina Requena.

No further words are needed about her as she's given us all the answers in the interview below 📌

1. Tell us a little about yourself

I am an international lawyer with vast expertise in Corporate, M&A, national and international contractual practice and general corporate and commercial law.

I am passionate about new technologies and their use to make companies and communities more efficient. I am also passionate about nature, music and most of everything about my family.

2. Why Web3 — what do you like about the Web3 space?

Web3 has been created as a space to improve the current conditions of Web 2.0. In Web3 users become the key players [as they leave the role of simply being] customers/users through the implementation of decentralization.

[Mainstream Web3 adoption] will become a reality in the next 10/20 years. I want to be part of the change and educate myself and the others of the potential benefits, and also the downside, of Web3.

From Web3 spaces I like the security, privacy and ownership feeling, as well as the benefits that its use will bring to the community and the environment.

3. What do you do at Winding Tree?

Winding Tree has given me the opportunity to manage all the legal issues that impact [its] development and growth, but [I've also been exploring] project management [by] helping the team to be more efficient and organised.

4. Why Winding Tree?

Winding Tree is developing the first decentralised travel marketplace with the aim to solve the travel industry problems [that we believe blockchain can fix].

Through this technological development, we are building the world's most fair and efficient travel marketplace where the owners will be the users.

How [can we] not take part in this challenge?

5. What has been your favourite travel destination or trip? Why?

I would be hard pressed to identify one favourite travel destination.

When I am in Barcelona I feel like I belong there.

Andorra is just awesome: Ordino and Escaldes are the most interesting towns to me.

Provence is the most romantic, wonderful, peaceful city in the world to me.

California and Italy have never disappointed.

6. Where do you want to go that you haven't been yet?

I want to go to Japan, Australia and New Zealand to discover completely different nature, their animals, climate and culture.

7. What is your favourite way of travelling?

Campervans: I love the independence that it gives to me and my family. Our car and our house [is] always with us!

8. One piece of travel advice from your experiences.

My only advice is to always travel in an environmentally friendly way and, above all, to discover the travel destinations' culture.

End of interview

And that was Cristina! We hope you enjoyed learning more about our diverse team of Web3 enthusiasts and professionals and follow us to read more about our team.
